

Why choose us

For your Foundation Pharmacist Training Year

As you progress into the final year of your MPharm course, you will probably be wondering just where the time has gone! Very soon you will need to make some important decisions about your future career and your choice of Foundation Pharmacist Training Year employer is a key part of that process.

We are a regional, fiercely independent group of busy pharmacies with well fitted premises and highly trained staff. Our management team is comprised entirely of pharmacists and we understand the professional needs and pressures of working in a complex healthcare environment. We are large enough to provide full professional support but small enough to hear your views and treat you as an individual.

With an internal training team made up of pharmacists and registered technicians, close regional links with a wide range of NHS organisations and an ever growing partnership with UoL School of Pharmacy, we think we can provide you with a high quality, community based Foundation Pharmacist Training Year experience. Where better to start your professional journey than within an organisation where your opinion matters and your skills will be valued.

Marc Brooks MRPharms

Head of Pharmacy

49

pharmacies

We employ over
70 PHARMACISTS

Over three
quarter of
our pharmacies
are now refitted
to our Healthy
Living Pharmacy
standard

Last year, we dispensed over

5.6 million
prescription items

25,058

Covid Vaccinations
from Mar 21 – Jan 22

13,812

Flu Vaccinations
from Jan 21 – Jan 22

We encourage continuous
learning, including the
support of the non-medical
prescribing qualification and
post graduate diplomas.

We have pharmacists
working directly with
community hospitals,
community health
clinics, GP surgeries
and with the University
of Lincoln.

Introducing our Community⁺ health pod

Pharmacies provide a vital frontline health service. As well as our expert teams in branch, we've been bringing our healthy living advice out to the wider community – through a 5 metre tall inflatable blue pod!

In the last year, the Community Health Pod has toured **18 locations** giving over **1,000 health checks** and **1,200 BMI assessments**.

Members of the pharmacy team, which could include yourself, will be on hand to offer patients advice and answer any questions. We hope that our health pod will help promote the range of services our pharmacy teams can provide.

Fancy seeing it for yourself?

Visit our website to see where we'll be 'popping up' next!

DON'T JUST TAKE OUR WORD FOR IT...

Josh Pinder completed his Foundation Training Year with us, here's what he had to say...

Josh Pinder

Working for Lincolnshire Co-op has really helped me develop my experience in community pharmacy. All the pharmacy teams at all of the branches are very welcoming and they all speak to patients from different walks of life every single day. They are all very supportive, and they all get behind you and help you in any possible way they can. That's not just the local team, but the area managers, the superintendent pharmacist and the head of pharmacy.

I would like to stay working for Lincolnshire Co-op and learn more about how different branches work. Ideally then I would like to take on my own branch and become a pharmacist manager.

Why Lincolnshire Co-op?

We offer a broad Foundation Training Year experience across community pharmacy and general practice and provide services to a community hospital trust and Lincolnshire Partnership NHS Foundation Trust. We encourage continuous learning and could offer development opportunities to grow and diversify during your career with us.

Once qualified, our pharmacists have varied and exciting roles working directly with community hospitals, community health clinics, GP surgeries and the University of Lincoln.

We have 49 pharmacies in a wide range of locations, the map below gives a rough idea of where you can find us.
