

## Our Year 2022/23

**We strive to make life better in our communities** – our purpose is to provide and support valued services, look after our local environment, care for health and wellbeing, and grow the local economy.

It's become even more important as we try and help people overcome the challenges they're facing every day.

**Delivering our purpose is at the foundation of what we do at Lincolnshire Co-op.**

Working together, our colleagues, members, customers, partners and suppliers have made a positive impact this year.

And, with your support, we're determined to remain sustainable so we can continue to do this during difficult times.

We opened  
 **4 new stores**  
in **Barrowby, Lincoln, Warsop & Bilsthorpe.**

We welcomed  
**1 new pharmacy**  
in **Winterton.**

New outlets, refurbishments and project investment saw **£14m spent with local businesses** through our construction programme, helping boost the local economy.

Colleagues were given profit share bonuses totalling  
**95%**  
of a week's wage.

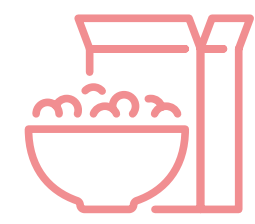

All teams benefitted from at least a  
**6% pay increase** 

**455** volunteers spent **2,475** hours on **71** community projects. Our employer-supported volunteering programme connects colleagues with their local community.

With your help, we raised  
**£619,198** for  
**415 groups**

through our **Community Champions** scheme – thank you all for your support. Organisations benefitting included hospices, suicide prevention charities and lots of local good causes.

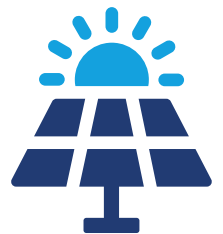

We support  
**208 school breakfast clubs**  
with vital ongoing funding.

**475 people**  
had a **health MOT**

at our **mobile health pod**, which popped up across our area, offering widespread access to free health checks.

We plan to install solar panels at an additional  
**10 sites**   
this year.
